VENTURES

IoTNext 2018 Awardees

Agritech

Emerging Tech

Health Care

Industrial IoT

Smart City

The details of the previous years' winners can be found at http://www.iotforindia.org/wiki/List_of_IoTNext_Awardees

2019 Award Category Most Promising Startup

Agritech

Emerging Tech

Health Care

Industrial IoT

Scaled-up
Startup Business

Online Applications --> Pre-screened by IoTNext Team --> Presented to Jury

Jury

Dr. Satya Gupta

Vice-Chairman, IESA

Arvind Vasu

Senior VP, ABB
Technology Ventures

Neha Satak

CEO, Astrome

MOST PROMISING STARTUP

Category - AGRITECH

Nominees

- **Farmagain Agro**
- **CropIn Technology**

A complex network of white dots and lines on a dark blue background, resembling a globe or a data visualization. The dots are connected by thin white lines, forming a dense, interconnected structure that suggests a global network or a complex system. The overall aesthetic is clean and modern, with a focus on connectivity and data.

and the winner is...

Farmagain Agro

Farming revisited with crop centric precision agronomy, better water utilization, optimum fertilizer usage, increased productivity and reduced power consumption.

Farmagain Differentiation

Precise Irrigation

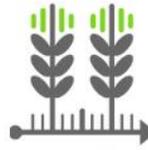

Crop Specific Fertigation Plans

Pest and Disease Control

Farm Input Supply

Autonomous Precision

Yield Boost

Protected Cultivation

Smart Farms

Track Harvest

MOST PROMISING STARTUP

Category - HEALTHCARE

Nominees

- **Sensesemi Technologies**
- **Dipitr Technologies**
- **MedloTek Health Systems**

A complex network of white dots and lines on a dark blue background, resembling a globe or a data visualization. The dots are connected by thin white lines, forming a dense, interconnected structure that suggests a global network or data flow. The overall aesthetic is clean and modern, with a focus on connectivity and data.

and the winner is...

Dipitr Technologies Pvt Ltd

India's First Smart 360° Posture Care Solution.. helping improve your health by alerting about your posture.

Introducing Strack!

India's First Smart 360° Posture Care Solution

MOST PROMISING STARTUP

Category – EMERGING TECH

Nominees

- **Nymble labs**
- **Embedsense Solutions**
- **Aerologiks**

A complex network of white dots and lines on a dark blue background, resembling a globe or a data visualization. The dots are connected by thin white lines, forming a dense, interconnected structure that suggests a global network or data flow. The overall aesthetic is clean and modern, with a focus on connectivity and data.

and the winner is...

Aerologiks

Drone based IP led technologies in the areas of Autonomous vehicles, Aerial image and video analytics, On-board computing and real time decision making

MOST PROMISING STARTUP

Category – INDUSTRIAL IOT

Nominees

- **Minion Labs**
- **Occipital Labs**
- **Saara**

A complex network of white dots and lines on a dark blue background, resembling a globe or a data visualization. The dots are connected by thin white lines, forming a dense, interconnected structure that suggests a global network or a complex system. The overall aesthetic is clean and modern, with a focus on connectivity and data.

and the winner is...

Occipital Labs Pvt Ltd

occipital

A Deep Energy Analytics company with Maintenance-free sensors that can be snap installed in minutes

MOST PROMISING STARTUP

Category – Scaledup STARTUP

Nominees

- **Chitraarts opc**
- **Deep Armor**
- **SmarterHomes**

A complex network of white dots and lines on a blue background, resembling a globe or a data visualization. The dots are connected by thin white lines, forming a dense, interconnected structure that suggests a global network or a complex system. The overall aesthetic is clean and modern, with a focus on connectivity and data.

and the winner is...

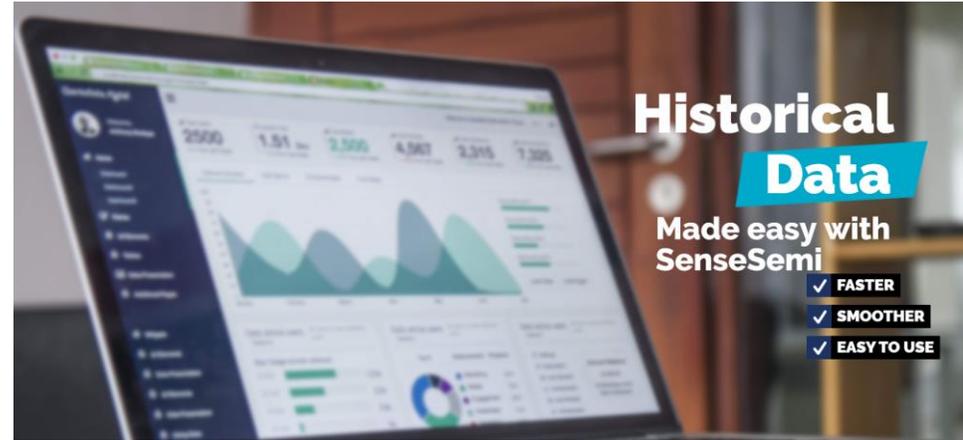

SmarterHomes Technologies Pvt. Ltd.

Solving a real-world problem of lack of water metering in residential dwellings and offering a full stack of water metering products

IoTNext 2019 – Special Mention Award

Health Care - Sensesemi

Mobile

Device

Interaction

IoTNext 2019 – Special Mention Award

Emerging Tech - EmbedSense Solutions

FLUXTRON™

AMPTRON™

MECHTRON™

IoTNext 2019 – Special Mention Award

IIoT – Minion Labs

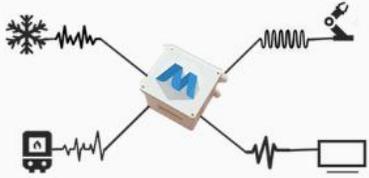

1. Installation and Configuration

- Installed non-intrusively in 3 steps
- Connects to Wi-Fi
- Sends real-time data

2. Collecting Data

- Machine learning phase.
- Learns energy consumption pattern

4. Get the Full Picture

- Recommendations to reduce electricity costs
- Set alerts and notifications
- Converts KWh consumption to cost
- View itemised cost breakdowns
- Compare your tariff for better deals

3. Analytics

- Comprehensive report
- Trends on energy consumption & it's usage pattern
- Valuable insights to make actions to stay energy efficiency

Thank you!
